### **Policy on Refunding of Tuition Fees and Reimbursement of Costs**

The University has a financial strategy which ensures long-term sustainability whilst supporting short-term liquidity. This means that the University will continue to seek to maintain cash balances to meet its expected obligations in the normal course of operations, including any that should arise from its Refund and Reimbursement Policy. We also have a long-term banking arrangement which allows us to access further working capital if required. This places the University in a strong financial position should the need arise to provide refunds to tuition fees and other costs.

The University has a policy on refund of tuition fees and cost reimbursements which can be accessed here:

## **Section 3**

### **How we will communicate with students on the Student Protection Plan**

We will publish our SPP to all current and prospective students once our registration with the OfS has been approved, which is likely to be in late summer 2018. The SPP will be accessible on the University's terms and conditions section of our website to which all applicants are directed on accepting a place to study at Lancaster, and to which students are directed at initial and re-registration.

All staff will be made aware of the SPP and will pay due regard to the assurances to students provided in the SPP.

The SPP will be reviewed on an annual basis and, as part of the review process, the SPP will be formally considered at the Student Engagement and Academic Representation Group, the membership of which includes the Students' Union President and Vice-President Education, who will be asked to consult with student representatives on proposed changes to the SPP.

Should we need to invoke any aspect of the SPP, working within our existing emergency and contingency frameworks, we will proceed as follows:

- i. deploy multimedia communications (individual and group, digital and/or face-to-face as appropriate) to ensure students are updated on events as they unfold and are directed to relevant support services;

- ii. work with the Students' Union to facilitate the provision of independent advice to students on their options;
- iii. provide information, advice and guidance through our existing student support services (financial, welfare and academic).

Should students be dissatisfied with the outcomes that may result in the implementation of any aspect of the SPP, they will be able to make a complaint through our [Complaints Procedure](#).
